Parkview is an established London based building company operating in London and within the M25. We take pride in delivering an honest and straight forward service, with no quibble, no fuss and no excuses.

We ensure full project and site management for every project. We employ a truly structured approach to domestic building works with the right management in place to ensure the smooth running of the project.

We are extremely selective about who we choose to work for us. Parkview only employs the very best of tradesmen and we ensure before employing them that the individual has a wealth of knowledge in his own particular trade.

We have developed a strong network of architects, structural engineers, quantity surveyors and trade specialists enabling us to deliver a seamless construction service.

“It's hard to find a builder you can trust nowadays, so I was fortunate that Jack Koumis and his lads did my conversion. They worked to a high standard, were always courteous and never left me stranded by disappearing off-site like so many builders do!”

Muddy Mutleys

Hi! I'm Clare, founder of **Muddy Mutleys**, a Canine Behaviour Practitioner, ISCP Dip. Canine Prac. a full professional member of INTODogs, and a full professional member of the International Companion Animal Network; 407. A fully accredited member of the Association of Pet Dog Trainers; 01328 and The Institute of Modern Dog Trainers. I am also a registered scentwork instructor, an accredited canicross instructor, and a certified real dog yoga/canine calming instructor.

Muddy Mutleys Dog Training School

- Workshops & group training sessions for the whole family
- Positive, scientifically proven, ethical reward based techniques
- Home visits and 1-2-1 sessions for puppies and dogs requiring individual guidance.

We offer 1-2-1 training, behaviour consultations, group training and specialist workshops. All our training methods are based on modern & science based techniques, using positive training methods without the need for force, aggression or methods that cause pain. Positive training ensures that the bond is developed not damaged and ultimately gives more rewarding and longer lasting results. Canine Calming sessions teach dogs to take and hold postures which are used in canine negotiation and stimulate the parasympathetic nervous system - which helps them to be calm and to keep them out of trouble. Postures also help with injury rehabilitation & stretching.
